

To whom it may concern:

K-Love is an effective tool in our Oklahoma City Community market from the standpoint of positive encouragement for living morally. If K-Love (which is one of the very few stations that is broadcasted) is taken off the air I feel it would significantly impact the character and moral fiber of this community, state, and nation which could not be even measurable at this time.

This station encourages me to be a better person. A person with passion and purpose to get through lifes struggles. It also serves as a reminder that there are other people going thru the same struggles as I and that we should not feel alone.

If K-Love is displaced by LPFM I believe that you will get rid of perhaps a small station but will allow much more negativity into the airwaves, and into peoples lives.

This station provides one of the greatest impacts for public interest in todays society and should be allowed to continue as is.

Please preserve this stations ability to broadcast as it see's fit.

Thanks

Chad Heinecke
